YOUR
BUSINESS

PRO 8475

CONNECTING YOUR WORKFORCE AND BUSINESS EVERYWHERE

This future-proof, ruggedised and versatile tablet helps you improve workflow efficiency, customer service and productivity with Google Services.

BENEFITS

IMPROVE CUSTOMER SERVICE

- Download apps from the Google Play Store to manage a more effective mobile workforce.
- Connect your field data with back office systems for more accurate ETAs and better visibility.

BOOST PRODUCTIVITY

- Highly ruggedised design is ready for use under all conditions.
- Reduce time spent on administration with automated logging of working time and mileage.
- Send instructions straight to drivers and plan easier with WEBFLEET Order Optimisation!

INCREASE DRIVER SAFETY AND EFFICIENCY

- Active driving behaviour feedback enables more fuel-efficient and safer driving.
- Drivers spend less time on the road and more time with customers with professional navigation.
- Drivers receive push notifications from business apps via Google Services.

CUSTOMISE IT TO SUIT YOUR NEEDS

- Access ready-built apps from accredited partners in the Webfleet Solutions App Center.
- Customise with MDM², user rights, Android apps and a full suite of SDKs.

FEATURES

ANDROID 9 WITH GOOGLE SERVICES

- Access standard Google apps and third-party apps in the Google Play Store.
- Improve efficiency with push notifications and security with Play Protect.

BEST-IN-CLASS (TRUCK) NAVIGATION

- Professional TomTom navigation provides the fastest routes and accurate ETAs.
- Large vehicle-specific routing³ helps keep your drivers on the most suitable roads.

VERSATILE CRADLE

- The compact yet powerful cradle holds the device securely.
- Multiple connection ports support extended uses.

REAR-VIEW CAMERA SUPPORT

- Dedicated video input allows you to connect a rear-view camera⁴ for safer, more convenient driving.

DIGITISED WORKFLOW

- Order management, active driver feedback, automated working times, mileage registration and more.

CUSTOMISATION AND CONTROL

- Build apps to manage processes like vehicle checks and electronic proof of delivery with fit-for-purpose SDKS.
- Manage the device with remote updates and fast deployment of content.
